

TRANSFORMING KIDNEY CARE

Bringing together the best in kidney care to form the nation's premier value based kidney care company to improve health outcomes and transform care delivery

kidney care and value based care expertise

network of more than 1,600 physician partners

innovative care model and patient engagement platform

Driving Meaningful Benefits for All

The new company will transform kidney care by empowering physicians, helping patients live their best lives, and reducing healthcare costs.

Patients

- > Access to comprehensive kidney care
- > Improved health outcomes
- > Better quality of life

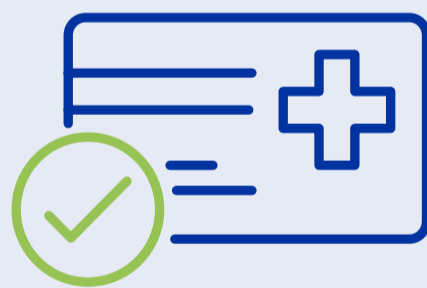

Physicians

- > Access to leading technology-enabled care model
- > Increased and more meaningful patient interactions and engagement
- > Continued growth, reach, and support

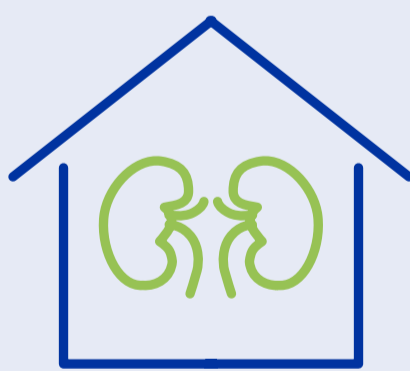

Public & Private Payors

- > Comprehensive value based care platform
- > Improved member outcomes
- > Reduced costs

Healthcare Industry

- > Accelerate at-home care
- > Improved health equity
- > Reduced costs

Building on a Strong Foundation

The new company will accelerate growth in the mid- and late-stage chronic kidney disease value based care population and will build upon a strong foundation of success to accelerate the transformation of kidney care.
